TITLE INDEX

Original papers

An assessment of acid rock drainage continuous monitoring technology: Fytas K, Hadjigeorgiou J 36
Automatic parameter estimation applied on a groundwater model: The problem of structure identification: Aschenbrenner F, Ostin A 205
Bacteria, fungi and biokarst in Lechuguilla Cave, Carlsbad Caverns National Park, New Mexico: Cunningham KI, Northup DE, Pollastro RM, Wright WG, LaRock EJ 2
Barometric pumping effects on soil gas studies for geological and environmental characterization: Wyatt DE, Richers DM, Pirkle RJ 243
Characterization of bottom sediments from Osaka Bay, Japan: Tokunaga S, Hoshika A, Tatsumoto H 263
Chromium contamination from chromite mine: Godgul G, Sahu KC 251
Deep-seated Geochemical Environments in Karst: An Introduction (Editorial): Palmer AN 1
Effective porosity and longitudinal dispersivity of sedimentary rocks determined by laboratory and field tracer tests Ii H 71
Elemental and isotopic geochemistry in the hydrothermal area of Chaves, Vila Pouca de Aguiar (northern Portugal): Aires-Barros L, Marques JM, Graça RC 232
Environmental assessment of 1991 Hudson volcano eruption ashfall effects on southern Patagonia region, Argentina: Inbar M, Ostera HA, Parica CA, Remesal MB, Salani FM 119
Environmental contamination of groundwater in the Gaza Strip: Al-Agha MR 109
Environmental mitigation and the Upper Yazoo Projects: Dardeau Jr. EA, Fischenich JC 55
Geochemistry of Fe and Mn in surficial sediments of a tropical river and estuary, India—a granulometric approach: Padmalal D, Seralathan P 270
Geologic impact of Hurricane Andrew on Everglades coast of southwest Florida: Davis Jr. RA 143
High sulfate concentrations in limestone springs: An important factor in conduit initiation? Worthington SRH, Ford DC 9
Identification and comparison of perennial yield estimation models using Mt. Amiata Aquifer (southern Tuscany, Italy) as an example: Barazzuoli P, Rappuoli D, Salleolini M 86
Land subsidence along the northeastern Texas Gulf coast: Effects of deep hydrocarbon production: Sharp Jr. JM, Hill DW 181
Migration and contamination of major and trace elements in groundwater of Madras City, India: Ramesh R, Shiv Kumar K, Eswaramoorthi S, Purvaja GR 126
Natural and human-induced sinkholes on gypsum terrain and its environmental problems in NE Spain: Benito G, Pérez del Campo P, Gutiérrez-Elorza M, Sancho C 156
Nitrate pollution of ground waters from shallow basaltic aquifers, Deccan Trap Hydrologic Province, India: Pawar NJ, Shaikh IJ 197
Noble gases dissolved in groundwater in a volcani aquifer: Helium Isotopes in the Kumamoto Plain: Mahara Y 215
On the neutralization of acid rock drainage by carbonate and silicate minerals: Sherlock EJ, Lawrence RW, Poulin R 43
Organic contaminants and characteristics of sediments from Oso Bay, South Texas, USA: Hollyfield S, Sharma VK 137
Plant species as indicators of geochemical anomalies: Experiences on *Ilex aquifolium* (Holly): Cellini Legittimo P, Ducceschi L, Martini M 114
Precipitation pollution effect on groundwater hydrochemical regime: Dzhamalov RG, Zlobina VL 65
Prediction method of sand-movement direction in water by geochemical elements: Mizumura K, Nishimoto T, Yamamoto T, Tsutsui H 100
Quality of rainwater: A geochemical process of water–air–rock–life interaction: Dongarrà G, Francofonte S 149
Radioelement (U, Th, Rn) concentrations in Norwegian bedrock groundwaters: Banks D, Røyset O, Strand T, Skarphagen H 165
Recharging of contaminated aquifer with reclaimed sewage water: Soliman MM, Nour El-Din M, Hassan NA 211
Regional assessment and mapping of groundwater vulnerability to contamination: Zektser IS, Belousova AP, Dudov V Yu 225
Size characteristics and mineralogy of suspended sediments of the Ganges River, India: Chakrapani GJ, Subramanian V, Gibbs RJ, Jha PK 192
Speleogenetic history of the Hungarian hydrothermal karst: Dublyansky YV 24
Sulfur redox reactions: Hydrocarbons, native sulfur, Mississippi Valley-type deposits, and sulfuric acid karst in the Delaware Basin, New Mexico and Texas: Hill C 16
Thermal convection of soil air on hillsides: Rose AW, Guo W 258
Water management by early people in the Yucatan, Mexico: Back W 239
